

Contents

1 Review of Scientific Method and Inorganic Chemistry for biologists 15

Themes

Science basics, units, quantities, abbreviations and symbols, steps in the scientific method, atomic structure, chemical bonds, acids/ bases, redox reactions, types of energy, thermodynamics' laws

Academic presentation skills

Using visuals to enhance the impact of your presentation

Academic reading skills

Skimming and scanning

Academic vocabulary skills

Academic word lists and collocations

English for Chemistry skills

Reading a chemical formula

Note-taking skills

Linear style with abbreviations and symbols

2 Introduction to organic chemistry and key biomolecules 45

Themes

Functional groups, polymers, conformations, isomers, lipids, carbohydrates, protein structure and function, Nucleic acids and base pairings, DNA/RNA comparison

Academic presentation skills

Making Comparisons in science: Venn diagrams

Academic vocabulary skills

Synonyms; Vocabulary use in context

Academic writing skills

Introduction to paraphrasing; using synonyms

Academic writing skills

Paragraph cohesion and coherence

Peer reviewing student sample paragraphs

3 Enzyme Biochemistry

69

Themes

Activation energy, substrates, inhibition and regulation of enzyme activity, factors affecting enzyme function, glycolysis pathway, Krebs cycle

Note-taking skills

Lecture cues and signposting language: identifying moves in a lecture

Academic vocabulary skills

Word families

Confusing words

Adverbs: degree, opinion, frequency, manner

Academic writing skills

In-text citations and references; Why and how we use them

Introduction to formality and academic style

Note-taking practice

Lecture on respiration and ATP

Noticing (in)formality: Transition from informal to formal language

4 Cell Biology and Cell Division

89

Themes

Phospholipid bilayers, active and passive transport, nucleus, ribosome function, microtubules and microfilaments, chloroplast.

The cell cycle, chromosome, and chromosome segregation, cytokinesis, stages in meiosis

Academic presentation skills

Making analogies to enhance the impact of your presentation; Note-taking

Academic reading skills

Skimming (subheadings, titles, or topic sentences)

Academic vocabulary skills

Synonyms

Academic writing skills

Nominalisations in scientific writing

Summarising

Peer-Reviewing student sample summaries

Note-taking practice

Summary practice

Lecture on Meiosis

5 DNA Replication Processes & Steps; Transcription & Translation

107

Themes

DNA replication, DNA polymerase, DNA's leading and lagging strands, transcription of mRNA, regulation of gene expression, intron and exon splicing, codons, translation of mRNA to protein

Academic presentation skills

Using mind maps to organise ideas and concepts

Academic vocabulary skills

Word formation and use in context

Academic writing skills

Style: Avoiding wordiness

Accuracy: Subject-verb agreement

6 Experimental language in common biological techniques

119

Themes

DNA plasmids, restriction enzymes and ligase, electroporation, heat shock transformation, bacterial transformation, recombinant DNA

Academic discussion skills

Expressing negative purpose

Note-taking practice

Introduction to Plasmids

Academic vocabulary skills

Laboratory equipment

Definitions/Confusing words in science

Academic writing skills

Style: Focusing on language of experimental data

Common pitfalls in scientific writing: ambiguity, personification, contractions, numerals and phrasal verbs

Laboratory report structure

Constructing a hypothesis

Style: Scientific tables and graphs: Formatting

Peer-reviewing a student's sample laboratory report

Note-taking practice

Following instructions and revising a manuscript after teacher feedback

7 Genetics; Principles of heredity; Genetic Mutation

151

Themes

Allele properties, Mendel's first and second laws, exceptions to simple dominance and independent assortment, chromosomal linkage

Academic vocabulary

Inferring the meaning of new words from context

Style: Distinction between subject-specific and general academic words

Style: Avoiding negative statements: using prefixes or antonyms

Prepositions and nouns made up of prepositions or prepositional prefixes

Academic writing skills

Style: Phrasal verbs in science and formal writing

Verbs of reference/citations

Note-taking practice

Mutations

8 From Plant cell to Plant development

171

Themes

Plant cell structure, plant stem and leaf structures, shoot system growth, root system, nitrogen, xylem and phloem, sporophytes, tropisms, seasonal growth cycles, mechanisms in plant development

Academic presentation skills

Predicting what's coming up in a lecture; presentation approaches

Academic vocabulary

Word formation and use in context

Compound words in biology

Common prefixes and suffixes

Academic writing skills

Style: Academic caution

Note-taking skills

Identifying key points in a lecture

Advances in Materials Science and Biology: Bioluminescence and "glow in the dark" plants

9 Ecology, Evolutionary change and Bioethics 193

Themes

Energy flow in an ecosystem, competition, population density, conservation biology, biogeochemical cycling/ the theory of evolution, the Hardy-Weinberg equilibrium, natural selection and adaptation, allopatric and sympatric speciation; Theories on the origin of life on Earth

Academic vocabulary skills

Definitions and word usage in context

Academic writing skills

Paraphrasing strategies
Cause and effect devices as paraphrases tools
Cause and effect as a paraphrasing tool
Evaluative language
Favouring and unfavouring others' views
Writing an argumentative essay
Peer-reviewing student samples

10 Animal diversity and development 223

Themes

Animal diversity, embryonic development in the early stages, gastrulation, hox genes, cell fate, fate mapping

Academic vocabulary

Inferring the meaning of new words from context

Academic writing revision

Academic writing strategies
Avoiding wordiness

Academic writing skills

Genre analysis: Comparing style of informal sources of information to scholarly articles.
Rewriting an informal article so that it adheres to academic conventions

Academic vocabulary skills

Vocabulary Synonyms

Note-taking practice

Fate mapping

Glossary 243

Evaluation Checklist 263

Bibliography 269
